ELECTION RESPONSE

COMMISSIONER FOR PATENTS  
ALEXANDRIA, VIRGINIA 22313

SIR:

This is responsive to the Election of Species Requirement mailed May 4, 2004.

Applicant elects, with traverse, with regard to Claim 6, the presence of an electronic microchip in the chip system; with regard to Claim 18, pain; with regard to Claim 20, a) pharmaceutical product, a veterinary medicine, a medical aid, a health care product, a body care product, for examination.

It is requested that the election of species requirement be withdrawn with regard to the disorders of Claim 18 and the products of Claim 20, since the crux of the invention lies in the chip system as defined in Claim 1 with the election of the presence of an electronic microchip in the chip system and the search will be directed towards discovering prior art on the particular chip system of Claim 1 including an electronic microchip in the chip system. Therefore, it is clear that the species of Claims 18 and 20 are proper for examination in the present application.

Application No.: 10/006,666  
Reply to Election Requirement of May 4, 2004

Further, if the Examiner's search fails to find prior art on the elected species of Claims 6, 18 and 20, it is requested that the Examiner extend the search to the non-elected species.

Accordingly, for the reasons presented above, Applicant submits that the Patent and Trademark Office has failed to meet the burden necessary to sustain the Election Requirement. Withdrawal of the Election Requirement is respectfully requested.

Respectfully submitted,
